The Cart Locker is a **modular, weather-resistant storage and charging solution** designed for electric motorized golf carts.

Built from powder-coated steel, each unit measures 30" wide × 20" tall × 36" deep and includes a standard 110V outlet for charging. The lockers are ventilated to prevent overheating and can be customized with club branding, colors, and configurations ranging from 5 to 100+ units.

CALLAWAY  
GOLF

## MEMBER BENEFITS

**Convenience:** Members avoid transporting carts to and from home.

**Always Ready:** Carts are charged while stored, ensuring they're ready for play.

**Security:** Lockers are individually keyed for secure access.

## INSTALLATION & CUSTOMIZATION

**Site Requirements:** Flat surface with power access.

**Add-ons:** Some Clubs have installed solar capability to deliver power in areas inaccessible to hard wiring.

## CLUB ADVANTAGES

**Revenue Generation:** Clubs typically charge \$300-\$500 annually per locker, with most recouping installation costs within 2-3 seasons.

**Low Maintenance:** No daily staff involvement; members can manage their own access.

**Flexible Installation:** Units equipped with adjustable legs and can be placed anywhere with electrical access and are installed in 1-2 days.

## HAPPY CUSTOMERS

" Solved our storage and power challenges... and **added revenue.**

GLENDALE GOLF & COUNTRY CLUB "

" The Cart Locker offers members a classy storage option, brings in added revenue, and supports Pro Shop sales. All 72 lockers are full, and **we now have a wait list**—a great problem to have.

MATT FREEMAN,  
CANYON MEADOWS GOLD & COUNTRY CLUB "

" Gives me the freedom to come and go... **secure, well-kept, fully charged.**

KAREN GREEN (MEMBER) "

" Cart Locker has **improved our ability to charge and store trolleys** for our members, **enhancing our customer service experience.**

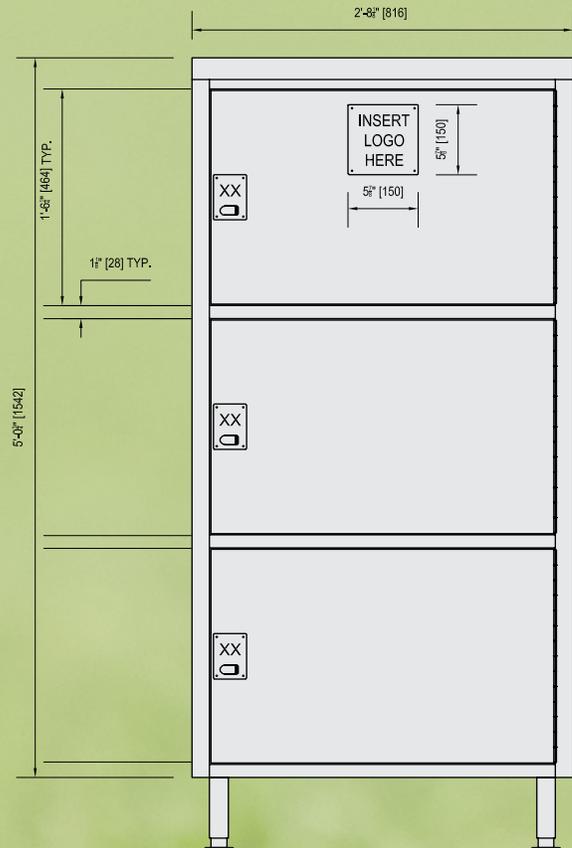

Working with Jeff and his team has been great, as the process from **ordering to delivery has been extremely efficient.**

PAT WILMOT, HEAD PRO,  
EARL GREY GOLF CLUB "
